

## FURY\* PRAYER FOR HEALING

Dear God we pray for those around the world with deadly diseases and cancers and cannot afford treatment. We think of those affected by violence and terrorism. We think of those areas where there is no medical support.

We think of our country and pray for the unfortunate people who have been pressured into taking drugs or use them to cope with depression and bad things in their lives.

We pray for this town - homelessness, road traffic and accidents, schooling and christian youth.

We ask you God to bless and support those in need, to heal those in pain and suffering - physically, mentally and emotionally.

We ask all this in your name. Amen.
